A BRAND BY INTEGRAL INTERNATIONALS

Precision Cutting Technology

Chip-Free Edges:

Consistent Quality at Scale:

Custom Thickness & Sizes – Durable |
Versatile | Industry-Ready

**ENGINEERED
FOR STRENGTH,
BUILT FOR
DURABILITY**

At Integral International, we **specialize in manufacturing High-Pressure Laminates** (HPL Sheets), Compress Laminates, and Laminated Panels in **custom sizes** and thicknesses ranging from **2mm to 25mm**, tailored for a wide range of interior and exterior applications.

Built to offer superior durability, weather resistance, and aesthetic appeal, our laminates are an ideal alternative to traditional MDF and PVC boards, especially in high-traffic, high-humidity, and functional environments.

APPLICATIONS

Our HPL and laminate products are trusted by professionals and manufacturers across industries due to their weatherproofing, aesthetic versatility, and structural reliability:

INDOOR PANELLING:

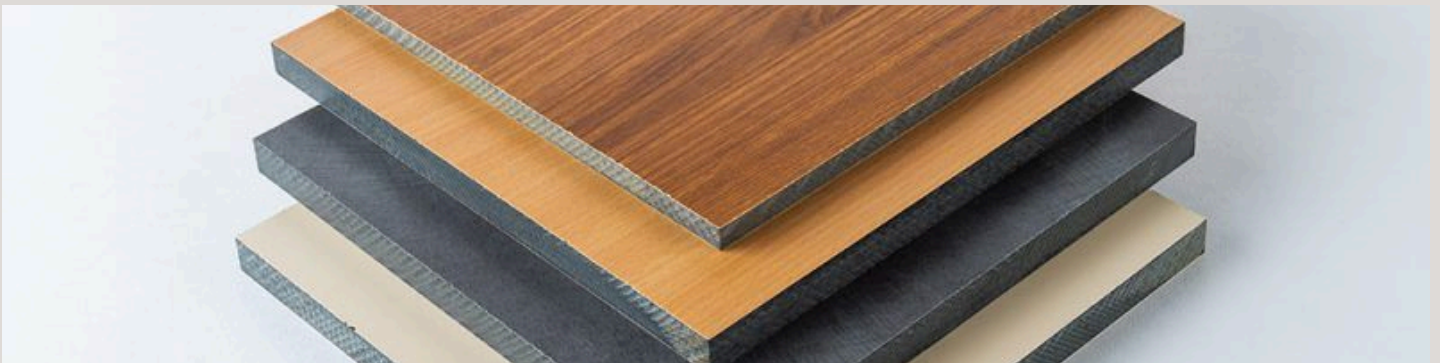

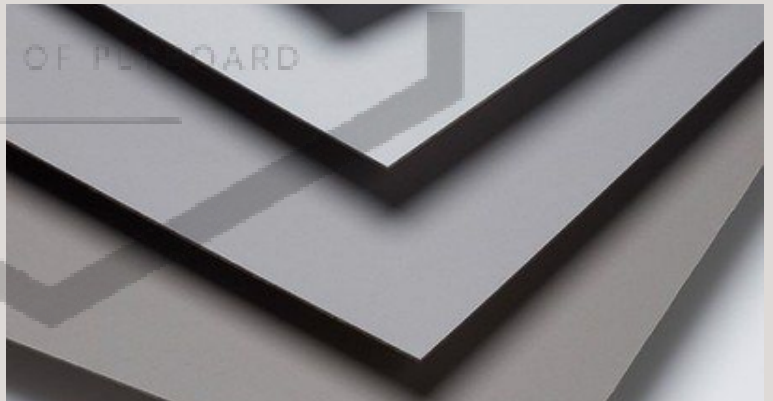

- Wall Panelling & Ceiling Panels
- Urinal Partitions and Toilet Cubicles
- Washroom Interiors in Malls, Hotels & Corporate Offices
- Aluminium Partition & Door Cladding
- Decorative & Thematic Stall Construction

COMMERCIAL FABRICATION USE:

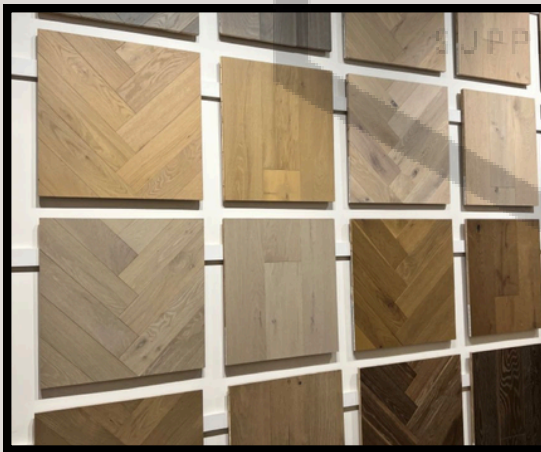

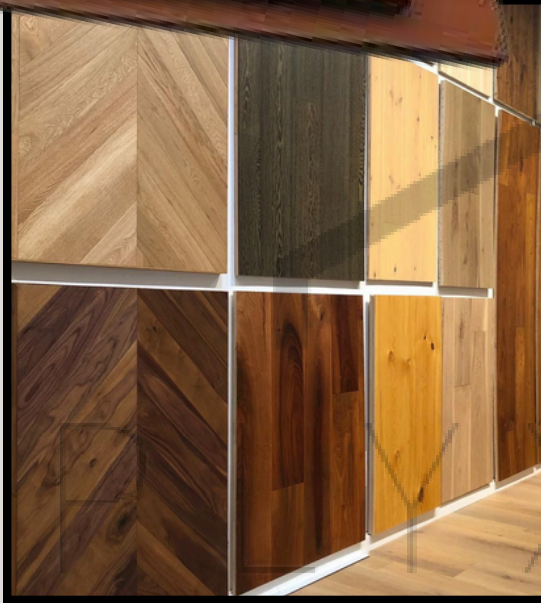

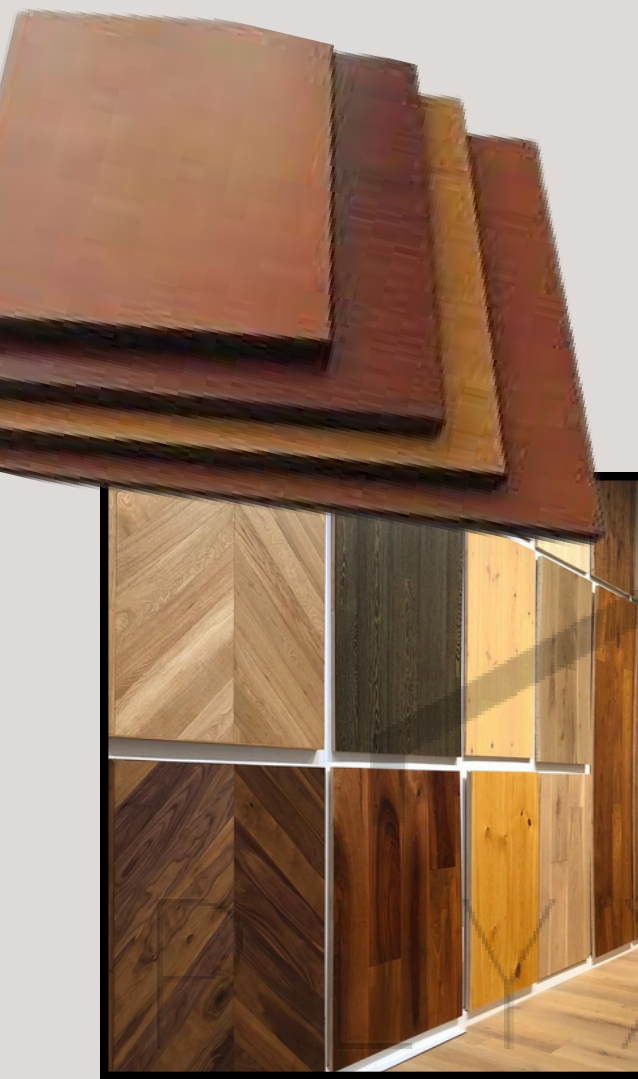

- Prefab Structure Panelling
- Stalls & Booths for Exhibitions
- Shop Fitting & Commercial Interiors
- Outdoor Façade Cladding

INDUSTRIAL & TECHNICAL USES:

- Electrical Switchboard Panels
- Electrical Transformer Base Insulation
- Poultry Incubators & Climate Chambers
- Machine Covers and Instrument Panels

PRODUCT SPECIFICATION

- **Product Range**

1. High-Pressure Laminate (HPL) Sheets
2. Compressed Laminates
3. Decorative Laminated Panels

- **Available Thickness**

1. Ranges from 2mm to 25mm
2. Custom thicknesses available on request

- **Sheet Sizes**

Offered in standard and custom sizes tailored to project requirements

- **Core Material**

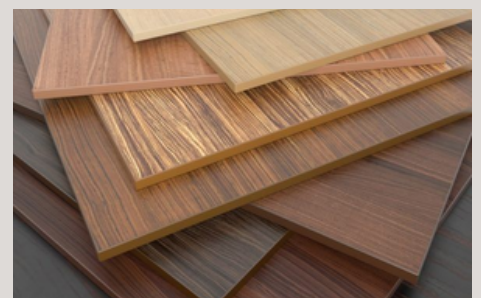

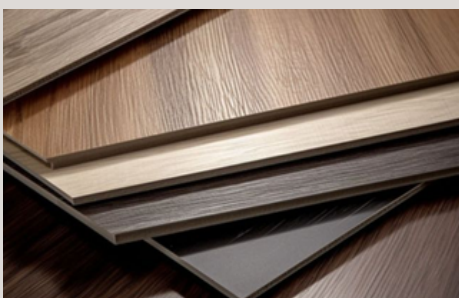

1. Industrial-grade treated plywood core
2. Phenolic resin core (as specified by client/project)

- **Surface Finishes**

Available in Matte, Glossy, Textured, Woodgrain, Solid Colours, and Custom Decorative Finishes

- **Bonding Technology**

1. Engineered with premium phenolic resins and thermosetting adhesives
2. Ensures superior durability, water resistance, and long-lasting performance

WHO ARE OUR TARGET CUSTOMERS?

- Aluminium Door Manufacturers
- Aluminium Partition Contractors
- Stall Fabricators & Event Setup Companies
- Toilet Cubicle & Urinal Partition Makers
- Modular Washroom Fabricators (Hotels & Malls)
- Prefab Structure Manufacturers
- Electrical Panel & Switchboard Builders
- Transformer Body & Core Panelling Suppliers
- Poultry Incubator System Builders

WHY CHOOSE US?

- ✓ Custom Size & Thickness Options
- ✓ Termite, Moisture & Impact Resistant
- ✓ UV-Resistant & Fade-Proof (for outdoor applications)
- ✓ Precision Manufacturing using CNC technology
- ✓ Delivered with consistency, quality, and quick turnaround time
- ✓ Long service life and proven field performance

Integral Internationals stands for engineering excellence, delivering reliable solutions to fabricators and infrastructure builders across India. Whether you need panels for aluminium partitions, urinal dividers, or technical insulation, we offer customizable options with professional-grade performance.
