

SCAFFOLDING PLYWOOD (ARTIFICIAL PLYWOOD)

Integral International is a trusted manufacturer and supplier of Scaffolding Plywood, also commonly referred to in the industry as Artificial Plywood, specially designed for Scaffolding Ladder Manufacturers and Safety Platform Applications in construction and industrial sectors.

Engineered to deliver high load-bearing capacity, durability, and custom fit solutions, our Scaffolding Plywood is widely used for creating ladder steps, safety platforms, trap doors, walkways, and structural scaffold boards

SERVING THE NEED OF:

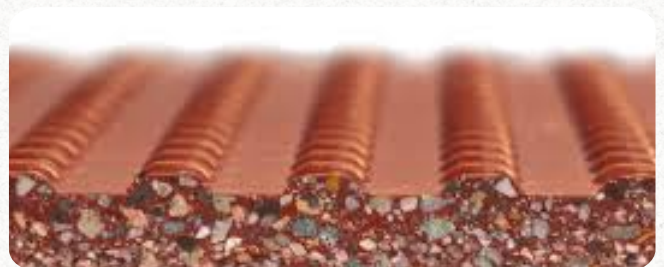

Scaffolding Equipment Manufacturers

Civil Construction Companies

Infrastructure & Highway Contractors

Industrial Maintenance Vendors

Warehousing & Plant Builders

Key Features.

FOR INDUSTRIAL LADDER & SAFETY PLATFORM USE

✓ Available Thicknesses:

Offered in standard options — 12mm, 16mm, 18mm, 25mm, and 30mm. Custom thicknesses can be provided on request.

✓ Custom Sizes:

Fully customizable panel dimensions to suit specific die-cut and application requirements, especially for ladders and platform systems.

✓ High Load Resistance:

Engineered with densely compressed hardwood veneers bonded using premium Phenol Formaldehyde (PF) resin, ensuring excellent structural integrity and moisture resistance.

✓ Optional Slip-Resistant Surface:

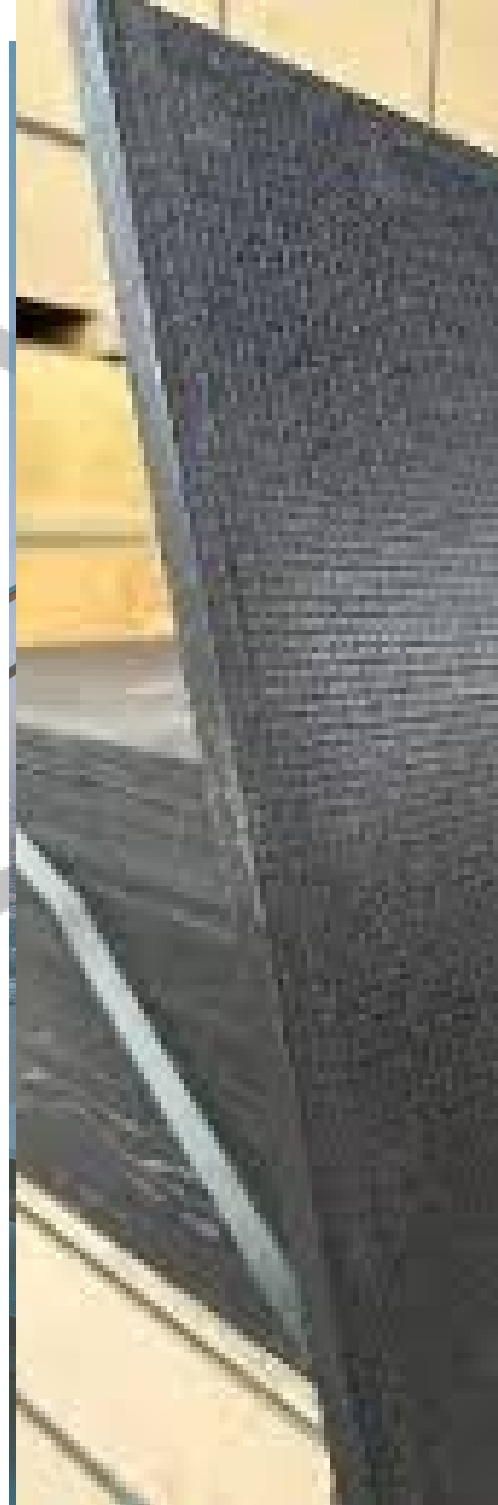

Available with anti-skid coating for enhanced safety during site operations.

✓ Termite & Water Resistance:

Chemically treated with industry-grade preservatives to resist termite attacks, fungal decay, and water damage—ideal for prolonged and repeated outdoor use.

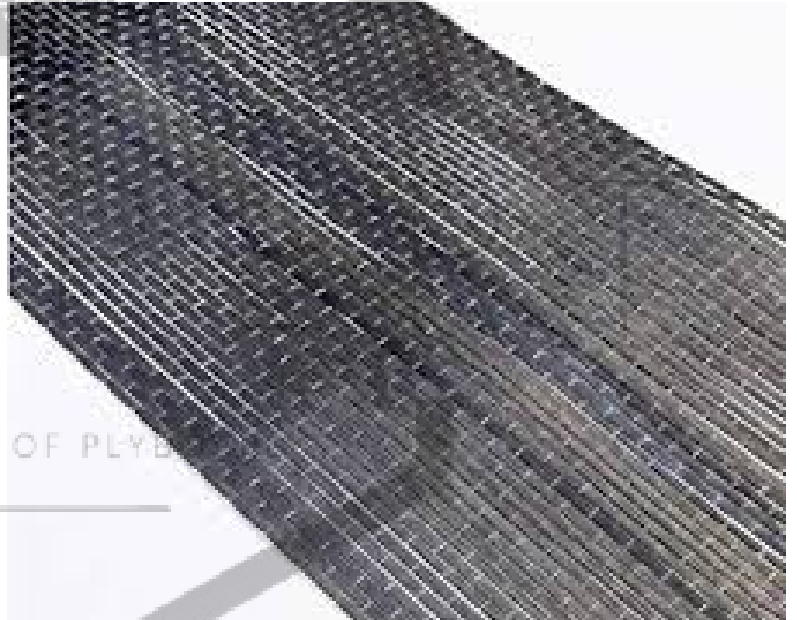

✓ Also Referred To As:

- Artificial Plywood
- Scaffolding Safety Board
- Scaffold Decking Panel
- Structural Ladder Plywood

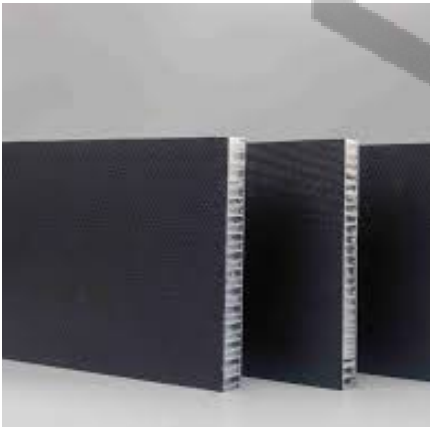

APPLICATIONS:

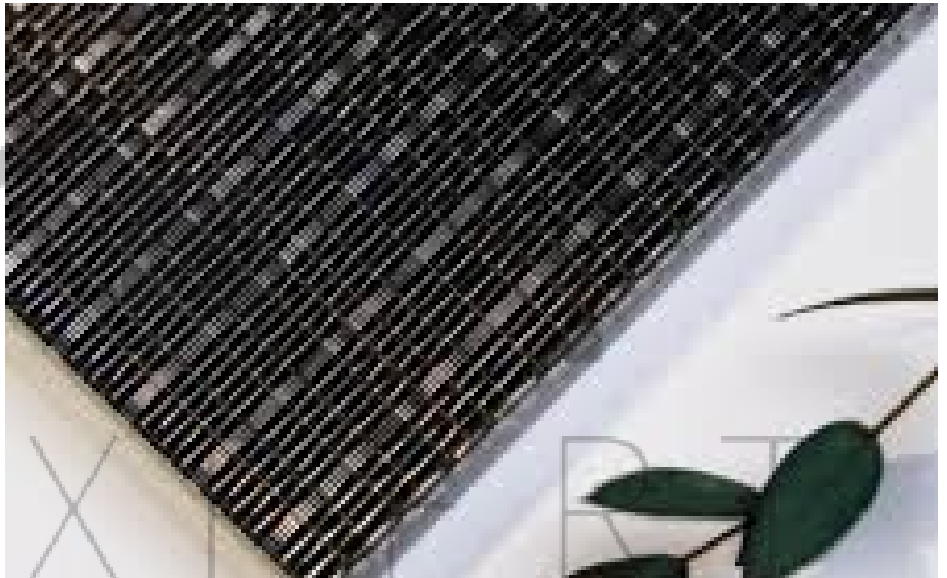

- Scaffolding Safety Ladders
- Trap Doors & Safety Platforms
- Stairwell Covers
- Ladder Rungs & Base Support
- Construction Site Elevated Walkways
- Maintenance Access Boards

Integral International ensures that every panel is manufactured with precision and rigorously tested to meet the practical challenges of on-site construction use and worker safety.

WHY CHOOSE US?

- **Industrial-Grade Quality Control**
- **Custom Manufacturing for Specific Applications**
- **Engineered to Withstand Repeated Site Use**
- **Lightweight Yet Highly Durable**
- **Pan India Shipping & Reliable Support**
